

# Reflector

Double Ended Fixture

HPS / MH

SKU:

Wide

ILUM-WIDE-NR

Deep

ILUM-DEEP-NR

## DE Wide Reflector

The ILUMINAR Wide Reflector allows fixtures to be mounted closer to the top of the canopy and is designed for lower ceilings. The reflector was designed to have a wider pattern of light around the 36" to 48" area spreading emitted light across the garden. For grow rooms that need higher clearance, look for our Deep Reflector that will allow up to 10' clearance to canopy.

### PHYSICAL SPECIFICATIONS

Length	298mm	11.74"
Width	246mm	9.69"
Height	105mm	4.14"
Weight	1kg	2.2lb

- ▶ German Aluminum Material
- ▶ 96% Reflective
- ▶ Wide Reflectors allows for low canopy mounting
- ▶ Clearance to plants canopy below 5'
- ▶ Easy to install, no tools required

## DE Deep Reflector

The ILUMINAR Deep reflector will allow the fixture to be further from the top of the canopy and focus more essential PAR light to the plants. The reflector was designed to have a narrow focused pattern of light around the 8' to 10' area. If you need a lower clearance, look for our Wide Reflector that will allow up to 4' clearance to canopy.

### PHYSICAL SPECIFICATIONS

Length	276mm	10.87"
Width	253mm	9.97"
Height	115mm	4.53"
